

Bathroom Sink Mats

Bathroom Sink Mats are your first line of defense for slippery surfaces and unpleasant odors in any restroom setting.

These bathroom mats protect those who are washing their hands or just walking past the sink by providing traction on floors that would otherwise be slippery due to water splashing and running down countertops.

- The anti-microbial agent in these bathroom floor mats helps eliminate bacterial growth, which often originates from wet floors, which draw dirt and debris from shoe surfaces.
- Bacteria and the odor it causes can easily be prevented with the use of bathroom mats.
- Dimensions: 33" x 53"
