

Carpeted Clean Room Sticky Mats

Carpeted clean room mats are sticky mats that trap impurities such as dirt, dust and debris in areas that require environments free of foreign substances. These clean room sticky mats feature a polypropylene fabric entrance mat to remove large amounts of dirt and debris and a tacky surface which pulls dust and smaller particles off shoe soles before they can contaminate a "clean room."

- Each mat contains 1 (or 4) pads with 60 layers per pad for a total of 60 (or 240) layers per case.
- Once the top film is contaminated, simply pull off and discard.
- Clean room sticky mats offer economical dirt control for low-profile carpet, tile or concrete surfaces.
- These clean room mats are ideal for hospital and laboratory use.
- Tacky polyethylene surface; 1/8" thick.
