

Rejuvenator Anti-Fatigue Mats: Linkable

Click any image to Enlarge

Rejuvenator is 100% urethane, an incredibly premium sponge compound that's more resilient than any other anti-fatigue mat. Rejuvenator is named for its ability to keep standing workers energized and comfortable.

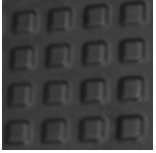

- Urethane compound is totally crush resistant and offers exceptional chemical resistance compared to rubber & vinyl.
- Virtually indestructible, Rejuvenator consists of a closed-cell urethane sponge totally encapsulated by a dense, 1/8" thick, urethane skin. This exterior skin provides outstanding abrasion resistance in high use areas and gives the mat an overall thickness of 5/8".
- The underside of the mat is textured urethane that grips hard, smooth floors, and prevents mat movement.
- **NOTE:** Male Ends have 3 finished sides and 1 side with interlocking teeth. Centers have 1 side which accepts the interlocking teeth, 2 finished sides and 1 side with teeth. Female Ends have 3 finished sides and 1 side which accepts teeth. **CLICK** on the right-most small image for more information.

Item No: FRJ.LK
