## Stair Tread Installation Kit

The Stair Tread Installation Kit is a double-sided tape which helps prevent stair treads from sliding around, especially on slippery surfaces including carpeted and hardwood stairs.

• Our stair tread installation kit tape adheres to both the treads above and stair below and can easily be removed without leaving a residue.

• When the stair tread tape is removed, no residue is left on either the stair treads above nor the step below.

• This double-sided tape is easily to use; simply peel and stick. The tape can be torn or cut with scissors.

• Dimensions of each roll: 6" Wide x 25' Long.
