

## Traction Hog Non-Slip Mats

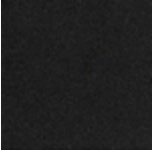

Traction Hog anti-slip mats offer a functional, bi-level diamond surface pattern that is coated with slip-resistant silicon carbide coating for maximum performance. Traction Hog mats are made of 100% nitrile rubber for excellent grease and heat resistance and increased durability.

- Built-in gutters keep liquids away from the traction surface while a low profile border design eliminates the need for separate ramps. A disk pattern backing keeps traction hog mats in place, especially in wet areas.
- Ideal for cooking and dishwashing areas, wet and slippery manufacturing areas, walk-in coolers and freezers and any other location that requires a slip resistant surface.
- These mats are have a coefficient of friction of 0.78 and are anti-static with an electrical resistance rating of  $10^8$  Ohms.
