

Waterhog Boot Tray Mats

Waterhog Boot Tray Mats are the most popular carpeted surface boot trays in the industry. Due to their high-low surface pattern, these Waterhog Boot Trays scrape shoes clean of dirt, debris and absorb water and snow. The Waterhog boot tray mat also features a water dam, rubber border that holds up to 1.5 gallons/SY of water.

- Waterhog Boot Tray Mats are available with a heavy-duty rubber border that prevents debris and moisture from running off the sides of the tray.
- The surface of the Waterhog Boot Trays are constructed from an anti-static polypropylene which dries quickly and will not fade or rot, making these boot trays ideal for both cleaning and drying boots both indoor or outside.
- To clean the Waterhog mat boot trays, simply shake out, use a vacuum or hose off and hang dry.
- These Waterhog boot mats have 20% recycled content.
